

Belt Type Oil Skimmer

BELT TYPE OIL SKIMMER

VISCO Belt type oil skimmers perfect design in belt oil skimmer models available from 20 LPH to 250 LPH oil removal capacities. Our heavy duty oil skimmer utilizes a special belt of Elastomer. This belt is lowered into the liquid that needs to be cleaned. The belt then passes through special wiper blades, which remove the oil from both sides of the liquid as it passes through. Our oil skimmers are available within the range of 5 feet to 15 feet length belt and 6 inch to 10 inch width with S.S 304,316 Roller for Continuous and heavy duty working.

Oil Removal Capacity	20 LPH to 250 LPH (Depends on model and belt Size)
Pulley or Roller	Special designed pulley to improve the adherence of oil to the inside of the belt which increases the removal rate.
MOC of Roller	MS/SS304/SS316
Motor	Heavy duty Gear Motor for continuous working 220VAC, single phase, or 415 VAC, three phase.
Belt	4 inch to 10 inch width, Length 5 feet to 15 feet.
Scraper	PTFE. Specify wiper material based on temperature and fluid compatibility.
Control panel	Inbuilt control panel with DOL Starter and ON-OFF push button for protection of motor. Fully covered body to protect electrical items.

Model, design and Capacity shall vary from Model to Model depending upon specific requirement.
