

VISCO Belt type oil skimmers perfect design in belt oil skimmer models available from 20 LPH to 250 LPH oil removal capacities. Our heavy duty oil skimmer utilizes a special belt of Elastomer. This belt is lowered into the liquid that needs to be cleaned. The belt then passes through special wiper blades, which remove the oil from both sides of the liquid as it passes through. Our oil skimmers are availed within the range of 5feet to 15 feet length belt and 6inch to 10 inch width with S.S 304,316 Roller for Continues and heavy duty working.

Model	VS#65	VS#100	VS#200
Capacity	10 – 12 LPH	40 – 60 LPH	105 – 150 LPH
Belt width	65mm	100mm	200mm
Belt material	Polyurethane/ polymer	Polyurethane/ polymer	Polyurethane/ polymer
Main / drive pulley material	MS/SS304	MS/SS304	MS/SS304
Tail pulley material	Nylon	MS/SS304	MS/SS304
Tail pulley arrangement	Lower Cage assembly hanging with chain	Lower Cage assembly hanging with chain	Lower Cage assembly hanging with chain
Scraper material	PTFE	PTFE	PTFE
Run off assembly	MS	MS	MS
Electric supply	220V, AC	220V/415V, AC	220V/415V, AC
Geared Motor	40Watt, 30RPM	.25HP,30RPM	.5HP,30RPM
Speed	Fixed & variable	Fixed & variable	Fixed & variable
Mounting facility	Floor / wall mounted	Floor / wall mounted	Floor / wall mounted
Rain Protection	Fully Covered Body	Fully Covered Body	Fully Covered Body
